ABOUT US

Construction Projects “CP” is an SMEIPP Africa focused construction and project services company with a highly experienced and effective leadership and management team with a solid track of successful project execution across the continent.

CP strategic focus is to provide Clients a tailor-made project solution with a dedicated hands-on leadership team who will go the extra mile to ensure projects are delivered safely and successfully in accordance with the client specific project requirements.

Backed by over 80 years of collective construction industry experience, our management and construction teams have been executing SMPP and E,C&I mining and infrastructure projects in remote and challenging site locations for over 20 years in countries such as Botswana, DRC, Ghana, Guinea, Mali, Mozambique, Namibia, Sierra Leone, and Tanzania. Our workforce is highly experienced, dedicated, and ready to execute projects within targeted African countries.

The team have extensive experience in the construction of material handling and processing plants across many commodities, including Aluminum, Coal, Copper, Diamond, Gold, Mineral Sands, Platinum, and Uranium.

Safety is our number one priority and the projects executed have been delivered to our Clients safely and successfully according to the highest standards.

OUR VISION

To become the preferred partner of choice for your SMEIPP construction projects across targeted African regions.

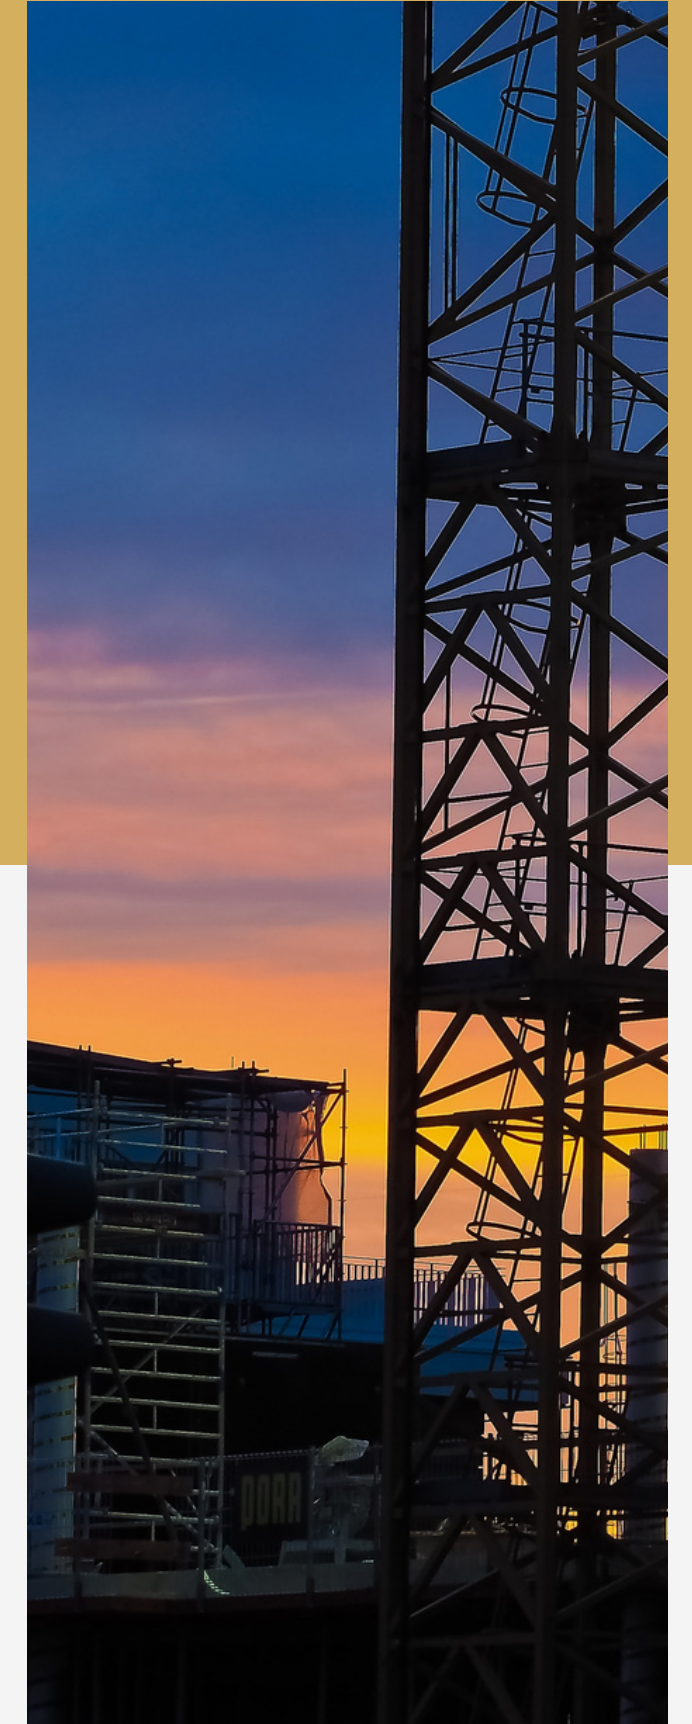

OUR MISSION

Our mission is to deliver tailor-made and effective solutions to meet our clients needs according to exceptional safety and quality standards.

OUR VALUES

To provide our services with professionalism, integrity, and transparency.

Going the extra-mile to ensure customer satisfaction.

OUR EXECUTIVE TEAM

Moses Nketia
Director

Moses Nketia is a highly accomplished and seasoned professional in the construction field. With an impressive Twenty-seven-year (27) track record, He started as a Mechanical Fitter, Steel Erector, and Boiler Maker and later worked within the ranks of Site Foreman, Site Supervisor, Site Superintendent, Site Manager, Construction Manager, and Project Manager. Moses has distinguished himself as a reliable and results-oriented individual, consistently delivering exceptional outcomes on challenging and diverse construction projects across Africa.

Moses Nketia's expertise in construction management is both extensive and diverse. His comprehensive knowledge encompasses all aspects of the construction lifecycle, from project initiation and planning to execution, monitoring, and successful completion. Moses possesses a keen eye for detail and a strong ability to coordinate the efforts of multidisciplinary teams, ensuring seamless collaboration and optimal project outcomes.

Throughout his career, Moses has successfully managed a wide array of construction projects, ranging from small to large-scale mining infrastructure development projects. His exceptional leadership skills, coupled with a deep understanding of construction methodologies and best practices, have enabled him to consistently exceed client expectations, delivering projects on time, within budget, and to the highest quality standards.

Moses Nketia's commitment to excellence extends beyond project management. He greatly emphasizes fostering positive relationships with all stakeholders, including clients, engineers, subcontractors, and regulatory authorities. His exceptional communication skills and ability to navigate complex construction challenges have earned him a reputation as a trusted and respected professional within the industry.

In summary, Moses Nketia's impressive experience, unwavering commitment to SHE, Quality, and exceptional leadership capabilities make him an invaluable asset in the realm of the construction Field with his proven ability to deliver successful projects and his dedication to fostering collaborative environments, Moses consistently ensures the seamless execution of construction projects, leading to the creation of remarkable structures and lasting client satisfaction.

OUR EXECUTIVE TEAM

Deon Naidoo

Director

Deon has worked in the construction industry where he has developed and refined his skills over a period of over 22 years having worked for a well renowned JSE listed company. He is results orientated, passionate about fostering relationships, driven to achieve the business objectives and to successfully deliver projects in various industry sectors across Africa where he managed a multicultural workforce in both SMPP & E,C&I disciplines taking SAFETY in the highest regard.

Deon has worked on various projects in South Africa, UAE and West African regions such as Ghana and Sierra Leone where he has successfully delivered projects on time, within budget, and with exceptionally high safety and quality standards.

Deon's career started as an Estimator and worked his way through various senior key roles, including quantity surveying, cost engineering, planning and scheduling, procurement, logistics, project, and operations management.

Deon's commitment and dedication to all stakeholders will ensure that any project executed, will be treated with the highest regards to meeting exceptional service delivery.

OUR EXECUTIVE TEAM

Carl Phenix

Director

Carl's professional career started in 1995 as a Quantity Surveyor in the mining and engineering services sector, and since then has worked in varying progressive roles throughout his career leading the successful project execution for companies within the mining and industrial services sector. Carl spent a large part of his career at a JSE listed construction company in the role of Project Director and later in his career successfully established and operated a Capital projects division for a company focused on mining and industrial construction development projects in West Africa.

Carl has a wealth of industry experience and has delivered multiple projects in challenging and remote locations, including Botswana, DRC, Ghana, Mozambique, Namibia, Sierra Leone, South Africa and Tanzania. These projects ranged from small, medium, to large capital projects, from initiation until execution completion and covered a vast array of commodities, including aluminium, coal, copper, diamond, gold, platinum, rare earth minerals, and uranium.

Carl is passionate about people and performance, and leverages on his relationships to deliver projects successfully in accordance with the client's requirements. He enjoys working in a dynamic environment where he can use his extensive experience, combined with his entrepreneurial mindset, to lead the development of the business towards achieving operational excellence.
